

MicroStrategy Narrowcast Administration & Tuning

Third Course in the following:

- Narrowcast Developer Track
- Certified Narrowcast Developer Program

Overview:

This 1-day course provides an in-depth study of some of Narrowcast Server administration and tuning techniques. This course assumes and builds on your understanding of basic Narrowcast Server concepts that are covered in the 2-day MicroStrategy Narrowcasting Essentials course. In this course, you will learn how to create a Narrowcast Server system from scratch. You will also learn best practices for upgrading your system, such as copying an existing system and administering multiple systems at the same time. Additionally, the course explains the governing settings and how to create a Subscription Portal using the Portal Administrator. Lastly, you will learn about tuning Narrowcast Server, taking into account the whole MicroStrategy platform.

Cost:

- US\$650 per person, or 1 LU

MicroStrategy Products Covered:

- MicroStrategy Narrowcast Server

Number of Days:

- 1 day
