

## MicroStrategy Web SDK Developer Exam

### Overview:

This exam is designed to certify students on the skills and knowledge needed to build customized web applications using the MicroStrategy Software Development Kit (SDK). Students will be tested through a written exam on concepts covered in the MicroStrategy Web Developer Track. Students will be tested on Web architecture and MicroStrategy Web API's, as well as how to create custom applications using those API's. An instructor will proctor the exam. Students who pass this exam will attain the MicroStrategy Certified Web SDK Developer status.
