

MicroStrategy Report Services: Document Essentials

Overview:

This two-day course provides an overview of document creation using MicroStrategy Report Services in MicroStrategy Web. The course introduces the many features that enable report designers to create sophisticated, boardroom-quality documents. Participants learn the Report Services architecture, the Document Editor's structure, techniques for formatting documents, document performance considerations, and more. Students gain hands-on practice through a series of exercises.

MicroStrategy Products Covered:
