

MicroStrategy Web: Report Design

Overview:

This one-day course is designed for MicroStrategy Web report designers who use the Web Professional version of MicroStrategy Web. Students will first learn about the Web Professional version of MicroStrategy Web. They will then learn how to create reports, report filters, and templates using Design Mode. The course covers the advanced report design features available in Web Professional. Finally, students will learn how to perform basic formatting changes to MicroStrategy Report Services documents in MicroStrategy Web.
