

MicroStrategy Visualization SDK Essentials

Overview:

This one-day course is geared towards individuals tasked with creating custom visualizations for MicroStrategy Web™ and MicroStrategy Report Services™ documents. The goal of this course is to introduce the students to the MicroStrategy Visualization SDK and provide them with the tools necessary to develop and integrate custom visualizations into MicroStrategy Web and Report Services documents. Students will learn how to create custom widgets for documents viewed in Flash mode. Students will also learn how to use the MicroStrategy Flex Visualization Builder Plug-in for Adobe Flex Builder to create custom Adobe Flex visualizations for reports and documents accessed via MicroStrategy Web. Finally, students will be introduced to the advanced capabilities of the MicroStrategy Flex Visualization Builder Plug-in. All of the concepts covered in this course are reinforced with hands-on exercises.

Cost:

- US\$650 per person, or 1 LU
