

MicroStrategy Report Developer Track

Desktop: Reporting Essentials → Desktop: Advanced Reporting 100
(2 days) (3 days)

Overview:

In this five-day track, students will discover the extensive reporting capabilities of MicroStrategy Desktop. Students will create and use advanced metrics, such as level and non-aggregatable metrics, and advanced filters, such as joint element lists and dynamic date filters. They will also learn about consolidations and custom groups, advanced prompts, advanced uses of OLAP Services, and drill maps. Students will perform hands-on exercises throughout the week to prepare them to meet the demanding needs of real-world reporting initiatives.

Cost:

- US\$3,250 per person, or 5 LUs
