# Environment Setup Implementation

Looking to enhance your pre-production solution validation and expand your Intelligence Platform footprint?

Leverage MicroStrategy Consulting to analyze your business requirements and configure your platform installation—deploying an optimized environment for extending your intelligence capabilities.

## TYPICAL TIMELINE AND STAFFING

One week with a Platform Administrator and an Engagement Manager from MicroStrategy Consulting.

## WHAT IT IS

We provide a team equipped with our proven methodology and enterprise platform expertise to evaluate your Intelligence Platform environments and provision an optimized computing environment to help you effectively validate solutions throughout your development lifecycle. We analyze platform performance and administration data to identify the ideal environment configuration and sizing framework for your needs. We then install, configure, test, and validate your new Intelligence Platform environment, and deliver tailored recommendations that help you efficiently operate and maintain your implementation across environments. Our Environment Setup Implementation engagement delivers:

- An optimally configured development, UAT, or production environment to help you effectively test solutions and extend your intelligence capabilities
- A customized operations and maintenance approach to help you streamline platform operations, efficiently manage job processing, and meet performance SLAs
- Collaborative workshops to identify new environment requirements, review implemented environment configuration, and facilitate adoption of operational best practices

Platform Operations Analysis       Optimized MicroStrategy Environment

*Figure 1: Our Environment Setup Implementation analyzes your platform operations and performance to recommend efficient configuration and sizing, and establish your optimized MicroStrategy environment.*

## WHY YOU NEED AN ENVIRONMENT SETUP IMPLEMENTATION

An Intelligence Architecture with undersized or poorly configured environments that does not support pre-production solution testing can fail to deliver a single version of the truth for enterprise and departmental reporting needs, diminish analytics and mobility solution performance, and degrade user community trust in intelligence capabilities.

Our experts help you analyze your platform operations, recommend an optimized framework for maintaining your system across environments, and create your new MicroStrategy environment.

# About MicroStrategy Consulting

## OUR PROVEN METHODOLOGY

Our MicroStrategy Consulting team has extensive hands-on experience helping clients determine project design and scope. We leverage a proprietary methodology that we've applied to help thousands of organizations around the world build a solid foundation for successful enterprise analytics and mobility initiatives.

Our comprehensive suite of Intelligence Program offerings is created with one goal in mind: to help you successfully build, deploy, and operate your unique Intelligent Enterprise. Each engagement we offer is structured to address your needs and deliver outcomes tailored to your unique goals. Scoping each offering around your key objectives allows us to rapidly deliver impactful strategies and enterprise-grade solutions while giving you the flexibility to streamline how you scale capabilities across your organization. Our comprehensive four-phase approach helps accelerate your time-to-value and drive your journey to an Intelligent Enterprise.

**ASSESS**
Conduct an Assessment to baseline your Intelligent Enterprise maturity

**ADVISE**
Recommend strategies to improve and optimize solutions through Advisory engagements

**ARCHITECT**
Execute Start Up or Implementation initiatives to build future state pilots or deploy enterprise-grade solutions

**ADOPT**
Conduct knowledge transfer and engage Education to further facilitate constituent adoption

## WHO WE ARE

We're a team of over 500 experienced consultants with a proven track record helping large, global organizations solve some of their toughest information challenges—and we're committed to helping you get the most out of your MicroStrategy investment.

## WHAT WE DO

We don't just fix short-term problems—we help organizations build a foundation for long-term success.

With every engagement, we seek to boost user and functional adoption, accelerate time-to-value, and arm our customers with the best practice frameworks and skills needed to become truly self-sufficient.

## WHAT WE MEAN BY SELF-SUFFICIENCY

We want to help organizations achieve independence on two fronts:

- IT independence from the outside: We help organizations develop the architectural foundation, skills, and processes they need to keep their enterprise analytics and mobility environment healthy and efficient without indefinitely relying on an army of contractors and consultants

- Business independence for self-service analytics: We help organizations deliver on the promise of self-service analytics—giving business users the autonomy to conduct their analysis and find answers while enabling IT to maintain a governed, trusted and reliable environment

## WHY WE'RE DIFFERENT

There are four key differentiators when it comes to setting ourselves apart from the competition:

- We have skin in the game—our success depends on our customers' long-term success

- We work with the engineers who build the MicroStrategy Intelligence Platform—every day

- Our team is rigorously trained and certified to utilize the latest and greatest MicroStrategy capabilities

- Our consultants work with the backing and expertise of the entire MicroStrategy engineering, support, and account teams
